Fall STEM Enrichment

at Hickory Elementary

In "It's Electric", we'll use the Engineering Design Process to design, create, test, and refine basic electronics and circuits. Some highlights include: experimenting with Snap Circuits® to discover the capabilities of major electronic components, building your own flashlight, and exploring the world of magnetic energy by building your own electromagnet. Join us today for this enlightening and electrifying experience!

Dates: Oct 16 - Nov 20

Mondays, 6 wks

Time: 3:15 - 4:15 PM

Grades: 1-5

Location: Lunch tables

Price: \$102

YMCA students will be escorted back after class

REGISTER ONLINE

Step 1: Go to www.engineeringforkids.com/beachcitiesla

Step 2: Click on the green "View Schedule & Register" banner & "Create New Account" in the system if you're a new user. Otherwise, click "Login"
